

Zaack

INTERNET OF AIR METROLOGY

IoT solutions for Indoor Air Quality

www.zaack.io

Zaack, an innovative start-up

Corporate Social Responsibility (CSR)

- Health, comfort and well-being of occupants
- Risk prevention

Economic impact of good IAQ

- Performance and productivity enhancements
- Lower absenteeism
- Opposable data
- Energy savings and better risk assessment
- **PREDICTIVE MAINTENANCE**

Our Innovative Solutions

Our products are **MADE IN FRANCE**
(design and production)

Our partners and suppliers are
exclusively European

Zaack DUST®

Zaack IAQ®

Zaack CR®

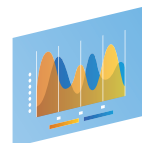

5 to 10 times more air
pollution indoors compared to
outdoor air

21 Billions \$
annual socio-economical cost of bad
indoor air quality in France, taking
into accounts only 6 pollutants ⁽¹⁾

80 to 90% of our time
is spent indoor or in semi-closed
environments ⁽²⁾

8 Millions deaths worldwide,
directly attributable to air pollution
in 2016
3,8 Millions premature deaths
linked to indoor air pollution

Zaack CR®, particle count monitoring in clean rooms and controlled environments

Zaack CR® monitors in real-time the particle count of 5 regulated channels for your clean room: **> 0,3 µm • > 0,5 µm • > 1 µm • > 2,5 µm > 5 µm**. It provides data that helps you control ventilation effectively and cut energy consumption, and get ready for qualifications and certifications.

1) Estimates by ANSES for 2014
(2) Source: WHO in 2018

Zaack IAQ®, pilot of your Indoor Air Quality

Zaack IAQ® provides real-time measurements for Carbon Dioxide (CO_2), Carbon Monoxide (CO), Nitrogen Dioxide (NO_2), Ozone (O_3), Total Organic Volatile Compounds (TVOCs), Particulate Matter (PM_{10} , $\text{PM}_{2.5}$, PM_{10}) and comfort parameters (Temperature, Relative Humidity, Atmospheric Pressure).

Real-time monitoring

Custom built based on your needs

Programmable Thresholds and Alerts

Prediction

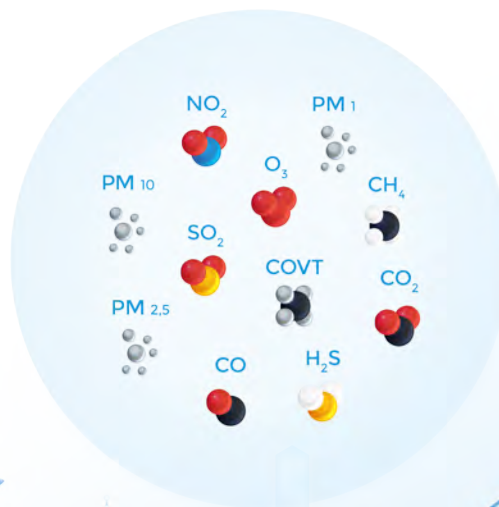

Can connect with your BMS (Business Management System)

Secure Cloud Storage: Data is stored on the Google Cloud Platform, and remains the property of our clients.

Outdoor pollution through open source data

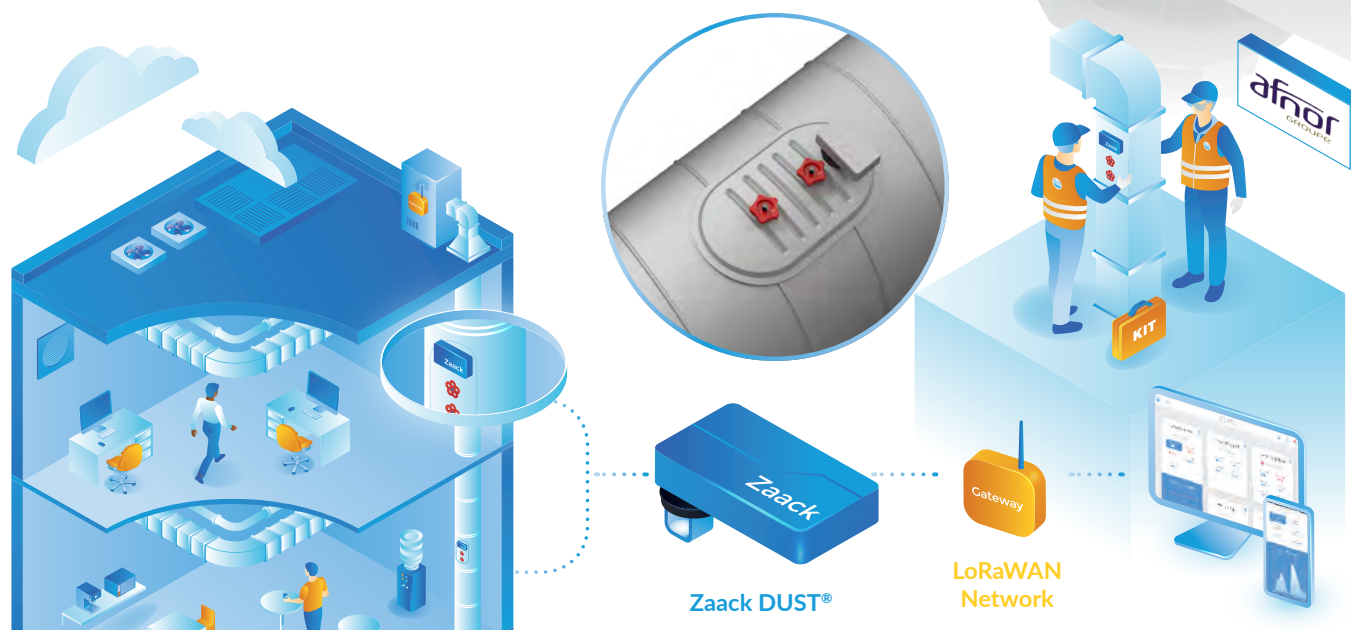

Zaack IAQ®
Real-time IAQ data sent to the cloud over WIFI, Ethernet (4G optional)

Zaack DUST®, Real-time monitoring of dust accumulation in ventilation networks with an integrated access door

Proper maintenance and timely cleaning of ventilation systems is key to a good IAQ (**NF EN 15780 standard**).

Zaack, a complete service package, always there for you

Your data

- Secure Cloud Storage
- Available on demand

Data access

- Real-time access everywhere
- Threshold overshoot alerts
- Bookmarks for personalization
- Printable reports on demand

Expert advice

- Remote counselling and diagnostics
- Recommendations
- On-site intervention if needed

High Quality monitoring

- One sensor per pollutant
- 11 parameters measured

Prior to installation

- On-site diagnostics
- Selection of the optimal location
- Installation and configuration

Maintenance

- Immediate replacement with another unit in case maintenance is required
- Remote updates
- Yearly calibration (leasing or contracted)
- Alerts in case of connection failure
